

Announcement of a Short Course Training:

‘Economic Modeling for Food Security Analysis’

The University of Nairobi in collaboration with Food Security Centre of University of Hohenheim, Germany, is offering a short course training at the College of Agriculture and Veterinary Sciences, Upper Kabete campus. The course is funded by German Academic Exchange Service (DAAD).

Title of the course: **Economic Modeling for Food Security Analysis**

Dates: **14th-18th December 2015**, everyday from 8.00 am – 5.00 pm

The guest lecturer is Prof. Victor Okoruwa from University of Ibadan, Nigeria. Other lectures include Dr. Catherine Kunyanga of the Department of Food Science, Nutrition and Technology and Dr. John Mburu of the Department of Agricultural Economics. There will be a whole day field trip as part of the training.

A non-refundable registration fee of Ksh 1,000 (one thousand) is payable at the Principal's office, College of Agriculture and Veterinary Sciences, Upper Kabete Campus.

Interested applicants should email their expression of interest to evelynjuguna@gmail.com and should provide proof of registration/admission as Msc or PhD students in a recognized university and involvement in research in food security and related disciplines. Further, they are required to have basic knowledge of statistical computer packages (e.g. SPSS, Stata, etc.) and bring with them a laptop during the training.

Deadline for application and payment of the registration fee is Friday 11th December 2015 at 3.00 pm.
